Sectors We Serve

- Government
- Telecom
- Banking & Finance
- Education

Clients Trust Datalink For:

- Tier IV Uptime Certified Datacenter Projects
- Turnkey Design, Build & Operate Models
- Real-Time Critical Infrastructure Monitoring
- Zero-downtime Maintenance Approach
- High-density Cooling & Containment Expertise

Why Datalink?

Datalink's Strategic Value Proposition

At Datalink, we are dedicated to empowering our customers to achieve excellence in Data Center Turnkey Solutions and mission-critical facility management through proven best practices and innovative approaches. Our comprehensive offerings are tailored to help you realize key objectives that drive your business forward:

- **Cost Optimization & Operational Efficiency:** Leverage our expertise to significantly reduce operational and capital expenditures while enhancing system performance, ensuring maximum ROI.
- **Maximized Value & Performance:** Deliver superior reliability, scalability, and ability to meet evolving business demands with confidence.
- **Uninterrupted 24x7x365 Support & Proactive Maintenance:** Guarantee continuous availability and peace of mind with round-the-clock support, rapid issue resolution, and preventative maintenance strategies.
- **Access to Top-tier Technical Expertise & Qualified Resources:** Benefit from our highly skilled professionals, certified specialists, and industry veterans committed to excellence in every facet of data center and facility management.
- **Regulatory & Industry Compliance:** Navigate complex regulatory landscapes seamlessly, ensuring adherence to all relevant codes, safety standards, health protocols, and achieving recognized quality certifications to uphold your reputation and operational integrity.
- **Best-in-Class Facility Management:** Implement industry-leading standards and practices—covering comprehensive training, operational safety protocols, advanced facility management software, real-time monitoring tools, documented operating procedures, governance frameworks, and detailed management reporting—to optimize facility performance and governance.

Partner with Datalink to unlock operational excellence, ensure regulatory compliance, maximize system uptime, and elevate your data center's strategic value. We are committed to delivering innovative, reliable, and cost-effective solutions that propel your mission-critical operations into the future.

Who We Are

Founded in 2007, Datalink is a Saudi company leading the field in Data center turnkey solutions (Design and build) and total Facilities Management (TFM) for mission-critical environments. We specialize in the operation and maintenance of data centers, telecom facilities, and enterprise infrastructure, ensuring uptime, business continuity, and energy efficiency.

Our Mission

Establish and maintain the local talent pool, a process that can provide international best practices and quality service in the Critical Facility Management Domain to capture the value from the rising expectation of Managed Service Operations in the Kingdom.

Deliver smart, sustainable facility management through skilled professionals, top-tier technology, and 7/24 operations.

Vision

Become the first Saudi Company providing O&M Service in the CFM domain at the level of the best international standard

What We Do

Core Solutions:-

- **Design & Build:** Full turnkey datacenter development, including Tier III & IV certified facilities.

Total Facilities Management Services

- **Hard FM:** HVAC, electrical, plumbing, fire safety, elevators, lighting, structured cabling.
- **Soft FM:** Cleaning, security, pest control, landscaping, mail/logistics, health & safety compliance.
- **Operations & Maintenance:** Predictive/preventive programs, 7/24 command centers.
- **Technical Services:** In-house engineers for rapid response, rollout, and installation.
- **Consulting & Audits:** Facility assessments, Uptime Institute certifications, environmental monitoring.
- **Critical Environment:** Datacenter operations, DCIM/BMS, precision cooling, UPS systems, redundancy management.
